Education

Indian Institute of Information Technology Senapati (IIIT Manipur)

2024 – 2028

B.Tech in Electronics and Communication Engineering

CGPA: 7.74

Projects

AI Resume Matcher

[Source Code](#)

MERN Stack, React.js, Node.js, Express.js, MongoDB, JWT, Multer, PDF-Parse, Google Gemini API

- Designed and developed an AI-powered Resume Matcher that analyzes resumes against job descriptions and generates ATS compatibility scores with AI-powered resume improvement suggestions.
- Developed a secure full-stack MERN application with JWT authentication, protected routes, resume upload, job management, and personalized resume history for each user.
- Implemented PDF resume processing using Multer and PDF-Parse to extract resume content and integrated the Google Gemini API for resume analysis, keyword matching, ATS scoring, and intelligent recommendations.
- Built an interactive React.js dashboard to upload resumes, visualize ATS scores, browse previous analyses, and manage job descriptions, while MongoDB stores user accounts, resumes, ATS reports, and matching history.

Amazon Frontend Clone

[Source Code](#)

HTML5, CSS3

- Recreated the Amazon homepage using HTML and CSS with a layout similar to the original website.
- Used Flexbox and CSS Grid to create a responsive interface with interactive hover effects.
- Optimized the design for mobile, tablet, and desktop devices.

Frontend Development Projects

[Source Code](#)

HTML5, CSS3, JavaScript

- Developed Tic-Tac-Toe and Rock-Paper-Scissors games with real-time gameplay.
- Implemented game logic including winner detection, score tracking, and click handling using JavaScript.
- Strengthened JavaScript concepts such as DOM manipulation and event handling.

Academic & Laboratory Experience

- Used GNU Octave to analyze signals, study frequency response, sampling, and communication system experiments.
- Built and tested analog circuits including OP-AMP based circuits using CRO, function generator, and laboratory instruments.

Technical Skills

- Programming:** C, C++, JavaScript, Python, SQL
- Web Technologies:** HTML5, CSS3, React.js, JavaScript
- Backend:** Node.js, Express.js
- Frontend:** HTML5, CSS3, React.js, JavaScript
- Databases:** MongoDB
- Developer Tools:** Postman, VS Code, GitHub
- React Concepts Practiced:** React Router, Context API, Local Storage, Custom Hooks, Theme Switching, Mini Blog App (MegaBlog)
- Engineering Software Tools:** GNU Octave, MATLAB
- Core Electronics:** Semiconductor Devices, Signals & Systems, Principles of Communication, Microprocessors (8085/8086)
- Lab Tools:** Oscilloscope (CRO), Multimeter, Circuit Simulation Tools

Coursework

Object-Oriented Programming (OOP)
Operating Systems
Signals & Systems
Communication Systems
Microprocessors (8085/8086)

Data Structures and Algorithms (DSA)
Digital Signal Processing (DSP)
Principles of Communication
Semiconductor Devices
Electronic Measurements

Leadership

Think India Academic Club, IIIT Manipur – Lead

- Managed academic club initiatives and student engagement activities.
- Mentored students and provided academic guidance and peer support.
- Coordinated literary and academic events within the institute.

Achievements

- Solved 300+ Data Structures and Algorithms (DSA) problems on LeetCode.
- Maintained strong academic performance in core ECE subjects.
